31 / S / 43 Supreme City, Kahanthota Rd, Malabe

SUMMARY

Driven final-year BSc (Hons) in Information Technology undergraduate with over one year of experience as a Trainee Software Engineer at IFS R&D International. Skilled in full-stack development, PLSQL, and AI integration, with hands-on experience across all stages of the software development lifecycle. Proficient in PL/SQL, IFS Marble, Java, Python, and React.js. A collaborative team player with proven problem-solving and leadership abilities, passionate about product-driven development and building efficient, scalable, and user-friendly applications. Committed to continuous learning and staying up-to-date with emerging technologies.

EXPERIENCE

IFS R&D International | Trainee Software Engineer *Colombo, Sri Lanka*

Nov 2024 – Present

- **Product support for customer reported issues** in IFS Cloud: Investigation of general support issues and fixing issues in PLSQL, IFS Marble code and analyzing customer reported performance issue
- Completed an **ERP project** covering Sales, Purchasing, and Manufacturing modules
- Contributing to **Copilot AI Assistance development** in IFS Cloud
- Core team contributor for **migrating** Crystal reports to Report Studio layout
- Contribute to enterprise-level **software development** within the Supply Chain domain
- Assist in **debugging, testing, and maintaining** scalable software systems
- Gain hands-on experience with **industry tools**, workflows, and agile development practices
- Support **continuous improvement** by identifying inefficiencies and **suggesting enhancements**
- **Collaborate** with cross-functional teams to analyze requirements and support solution development

EDUCATION

Sri Lanka Institute of Information Technology (SLIIT) Malabe, Sri Lanka

BSc (Hons) in Information Technology *2022 – Present*

CGPA: 3.3

Galahitiyawa Central College Ganemulla, Sri Lanka

G.C.E (Advanced Level) — Physical Science *2018 – 2020*

(Information Technology - C, Combined Mathematics - S, Physics - S)

TECHNICAL SKILL

Programming & Scripting Languages: Java, Python, JavaScript, HTML, CSS, C++, C, PLSQL, IFS Marble

Performance & Integration: Postman

Project Management Tools: Jira, Confluence, Figma, Microsoft Office Suite (Word, PowerPoint, Excel), Power BI

Data & Database Technologies: SQL, MongoDB, RESTful APIs, Oracle DB, Data Analysis, Basic Data Modeling

Frameworks & Libraries: MERN Stack, React.js, Spring Boot, Next.js, CodeIgniter, jQuery, Bootstrap, Tailwind CSS

Core Technical Concepts: Object Oriented Programming, Data Structures and Algorithms, Cloud Computing (AWS), Agile and Scrum methodologies

Version Controlling & Dev Tools: Git, Bitbucket, Sourcetree, Visual Studio, Docker, Google Colab

KEY PROJECTS

Born To Battle Dancing Competition project | *MERN Stack*

Group project done using MERN stack (React, Node, Express, MongoDB). Done for a real-world problem, with a real client. My contribution involved designing and implementing registration management part. Github Repository

Academic Scheduler

Microservices-based academic scheduling system built using Spring Boot, Flask, and React, featuring AI-powered conflict

detection and optimized timetable management. Designed with Docker and Kubernetes for scalable deployment, integrated with MongoDB, Redis, and monitoring tools like Prometheus and Grafana. Github Repository

SkillHive

Full-stack social learning platform enabling users to share skills, create learning plans, and engage through posts, likes, and comments. Built using React, Spring Boot, and MySQL with JWT-based authentication. Github Repository

Medicine and drug ordering system

Completed a group project to develop a medicine and drug ordering web application using the MVC (Model-View-Controller) architectural pattern. It was built using Java and MySQL Workbench. Implemented in Eclipse. Github Repository

Facebook clone

Developed using React, replicating the famous social media app Facebook Live

URL Shortner | *Ejs*

Developed using MongoDB, Js, Node.js and EJS templates. Github Repository

To do app | *Kotlin*

Using Kotlin, implemented in android studio, using SQLite database with Room library. Has the full CRUD operation. Github Repository

Tic Tac Toe | *Java Swing*

Creating a TicTacToe Game using Java Swing GUI. Github Repository

SOFT SKILLS

- Problem Solving & Analytical Thinking
- Team Collaboration
- Time Management & Task Prioritization
- Effective Communication
- Leadership & Initiative
- Adaptability & Continuous Learning

COMMUNITY DEVELOPMENT AND LEADERSHIP

- **Teaching Volunteer – Leo Project "Akura" 24.25:** Conducted educational sessions for underprivileged students
- **Ambassador Of Sri Lanka in World KARDO Asia:** Representing Sri Lanka in an international youth and sports platform, contributing to global community engagement
- **Community Builder & Workshop Organizer:** Organizing and conducting parkour workshops across Sri Lanka in collaboration with international athletes
- **Founder & Leader – Ramp Parkour Team:** Built and led a parkour team since 2020, managing team coordination, training sessions, and content creation

LICENSES AND CERTIFICATIONS

- **AI / ML Engineer -Stage 1 - SLIIT** Issued Dec 2024 — SLIIT
- **AWS Cloud Technical Essentials by Amazon Web Services – Coursera** In Progress - Coursera
- **Cloud Computing Basics (Cloud 101) by LearnQuest – Coursera** Issued July 2024 — Coursera
- **AWS SimuLearn: Cloud Practitioner – Amazon Web Services**
- **Introduction to AI – Google**
- **Introduction to Artificial Intelligence (AI) - IBM**
